

Wildflowers for the Native Garden

Presented by Brian F Jorg

Class Series: Gardening with Natives

Class Length: 1 hour

Class Type: PowerPoint Presentation

Class Description:

Using native plants in the home landscape is currently one of the hottest trends in gardening these days. Advance your understanding of these simple beauties and discover which plants are best suited for home cultivation. We will begin by looking at spring bloomers such as bowman's root and trillium to spectacular summer showstoppers such as purple coneflower and black-eyed susans, to the color season extending gentians and ladies tresses orchids. Learn also how to create the culture to successfully cultivate these easy to grow natives in your own home garden.

Brian Jorg, Cincinnati nature photographer, public speaker, and horticulturist, travels the world to capture the beauty of nature in photographic images. Brian also teaches many seminars, workshops, and classes in Cincinnati and around the region. To schedule an event with Brian or for a complete list of available classes, presentations and workshops please visit our website, www.brianjorg.com.
