

## **Going Green- Leading by Example**

**Presented by Brian F Jorg**

**Class Series: Environmental Stewardship**

**Class Length: 1 hour**

**Class Type: PowerPoint Presentation**

### **Class Description:**

The Green movement is going strong, but what measures are being incorporated in new commercial landscapes? Join us as we discuss the technologies that everyone has heard of, such as solar panels and rain gardens, but also talk about permeable pavements and geothermal power. This class will look at plant selection for sustainable landscapes as well. See the latest and greatest ideas being put into practice for sustainable infrastructure and landscapes, and learn ideas you can take back to implement into your own home landscape.

Brian Jorg, Cincinnati nature photographer, public speaker, and horticulturist, travels the world to capture the beauty of nature in photographic images. Brian also teaches many seminars, workshops, and classes in Cincinnati and around the region. To schedule an event with Brian or for a complete list of available classes, presentations and workshops please visit our website,
