

# An Opinionated Look at Native Plants

Presented by Brian F Jorg

Class Series: Gardening with Natives

Class Length: 1 hour

Class Type: PowerPoint Presentation

## Class Description:

To use natives or not to use natives. That is the hottest debate in landscaping today. With the occurrence of the internet, much information has been promulgated on the subject. This presentation will look at the claims made for and against the use of native plants and attempt to clear up some of the misinformation that exists. With over 40 years of native plant growing experience, growing over 250 species of commercially available native wildflowers, as well as a host of rare and endangered species for research purposes, I will attempt, with practical evidence, to dispel some of the misinformation that abounds. As a result, you will come away with the knowledge to help you grow more vigorous native wildflowers in your garden.

Brian Jorg, Cincinnati nature photographer, public speaker, and horticulturist, travels the world to capture the beauty of nature in photographic images. Brian also teaches many seminars, workshops, and classes in Cincinnati and around the region.
