

Summer Wildflowers of Eastern North America

Presented by Brian F Jorg

Class Series: Native Flora

Class Length: 1 hour

Class Type: PowerPoint Presentation

Class Description:

Summer prairie and woodland wildflowers can be found blooming in abundance throughout much of Eastern North America from June-August. In this class, we'll showcase perennial favorites such as the robust purple cone flower and the cheery black-eyed susan, as well as, the lesser known beauties such as two-flowered Cynthia and grass pink orchids. Whether blooming in roadside fields or within our own back yards, we'll discuss the best varieties to include in your own backyard cutting garden.

Brian Jorg, Cincinnati nature photographer, public speaker, and horticulturist, travels the world to capture the beauty of nature in photographic images. Brian also teaches many seminars, workshops, and classes in Cincinnati and around the region.
