

Tropicals in the Landscape

Presented by Brian F Jorg

Class Series: Horticulture / Gardening

Class Length: 1 hour

Class Type: PowerPoint Presentation

Class Description:

Nothing adds atmosphere and interest to the home garden like tropical plants. In this presentation we will discuss which tropicals will thrive in your summer garden and techniques to help them thrive in our summer heat. Familiar with palms, cannas, and elephant ears? Probably; let's expand our tropical plant palette to include dracenia, gingers, and banana to name a few. This class will help you make the best selections to transform your backyard garden into a tropical paradise!

Brian Jorg, Cincinnati nature photographer, public speaker, and horticulturist, travels the world to capture the beauty of nature in photographic images. Brian also teaches many seminars, workshops, and classes in Cincinnati and around the region. To schedule an event with Brian or for a complete list of available classes, presentations and workshops please visit our website, www.brianjorg.com.
